

To manage your BYOD Devices, open a web browser and go the following website:

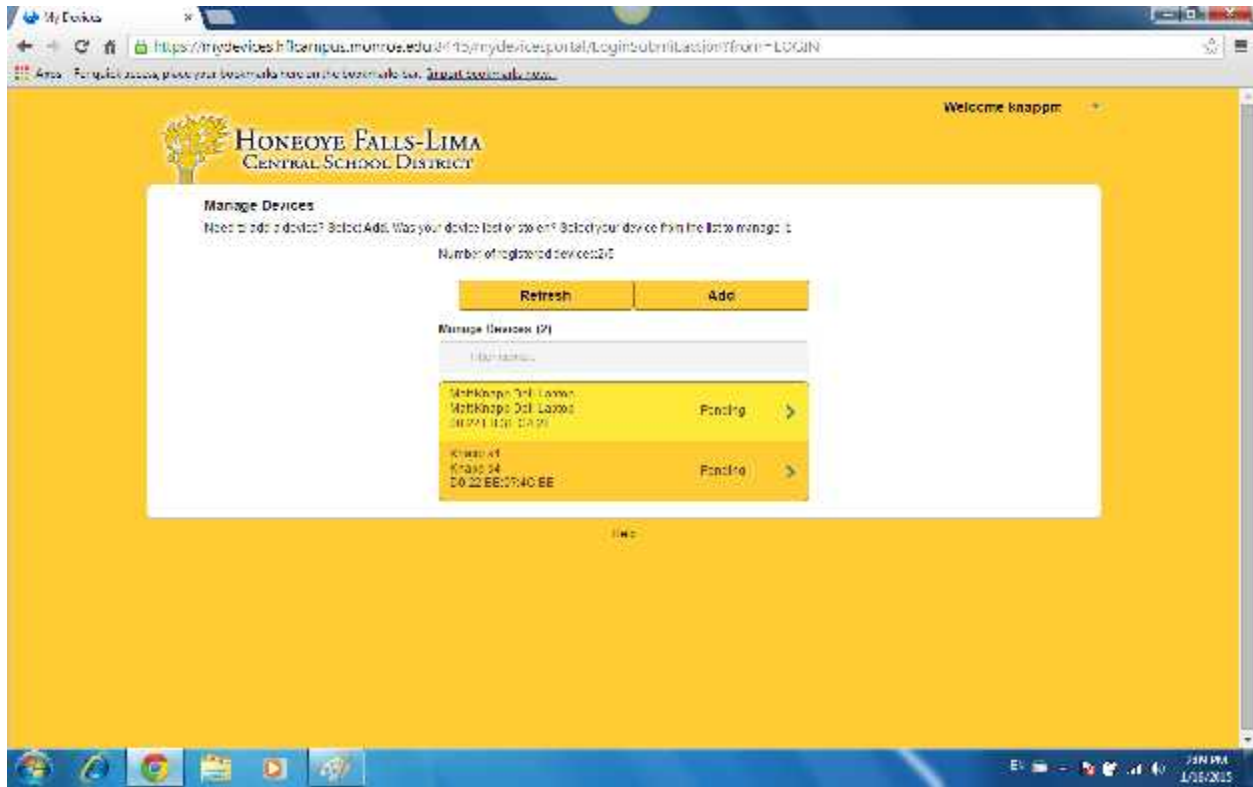

<https://mydevices.hflcampus.monroe.edu>

The screen will look like this:

Login with your network login (the same one you login to your district laptop)

Your registered devices will display as shown below:

Select the one you want to manage by clicking on it.

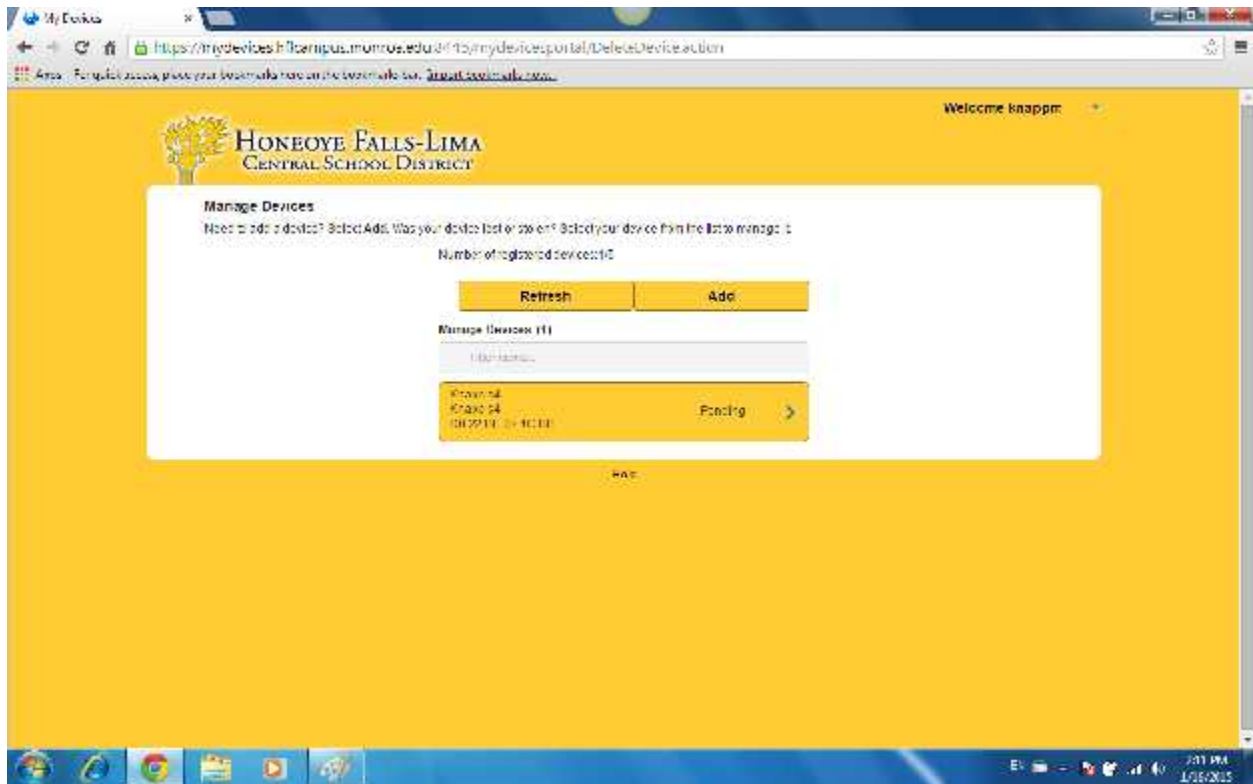

The following screen will appear:

Select the option you wish to do. I chose to remove (delete) from my device list. You will be prompted with a secondary question asking whether you are sure you want to do this as shown below:

Once yes is selected, it will be removed from your list as shown below:

You can now log out or manage other devices.
